Forecast for Thursday 26 Oct 2023

Weather: Areas of low cloud at first, perhaps with some rain and drizzle. Sunny spells developing, along with a scattering of heavy showers. There is a low risk the showers could be thundery. Showers could band together for a time in the afternoon and early evening, giving longer spells of rain.

Chance of cloud-free hill tops above 600m: 40%, becoming 80% by mid-morning.

Low cloud and visibility: Areas of cloud at first, base 200 to 500m, the cloud lifting and breaking near or above the summits during the morning, but lowering again in any showers. Visibility moderate or poor in rain and drizzle and very poor in cloud at first, becoming mostly good or very good except in showers.
